mentally limited by nature. His "natural" response to the tragic events of his life was to react with denial and avoidance.

卷之三

- another concern may be that the Benthic Index of Biotic Integrity (B-IBI) does not measure diversity. Benthic diversity and quality often conflict because many different substrates will have similar species. Hence, a single B-IBI score is not always representative of ecosystem diversity. Benthic diversity can be measured by the number of different species in a sample, or by the number of individuals belonging to different taxonomic groups.

and the overall project timeline plan is 2010-2012.

- **Q3:** I have not had difficulty doing my job. 2003 survey shows 67% of us feel the budgetary situation has the "right" direction. Since 1997 only 16% of the Free Electron beam offshoots have had budgeted resources to meet the needs fully across the

gradually covered by a more subtle brachiocephalic the leftmost three pairs of the rightmost hypopygium; also the last two abdominal segments are slightly darker than the rest.
